

4D Group

Technical Insurance: Coaching by the hour

4D Group offers a unique service to the London Market, being able to deliver highly relevant and timely technical Insurance coaching by the hour (minimum two hours), for a maximum of three individuals.

We appreciate that although an individual may need to understand a concept or topic, there are many factors that impinge on their time, and they would benefit from a short session, rather than being out of their work environment for an entire day.

How it works:

1. Individuals are provided with our unique Training Needs Analysis sheets, in advance, which details the topics covered by the following courses:

- Insurance for Non-Insurance People
- Introduction to the London Market
- Introduction to Insurance
- Introduction to Reinsurance
- Facultative Reinsurance
- Proportional Reinsurance
- Non-Proportional Reinsurance
- Lloyd's & London Market Introductory Test (LLMIT)
or
London Market Insurance Essentials (LM1)
London Market Insurance Principles and Practices (LM2)

Additionally:

- Insurance Terms and Concepts
 - XCS Process
 - Ins-sure Process
 - The Claims Process
2. The individual(s) are invited to select topics from the above listed courses and return the completed Training Needs Analysis forms to 4D Group.
3. One of 4D Group's experienced technical trainers will then advise the individual(s) how many hours of coaching is required to cover the chosen topic(s).
4. 4D Group will then contact the individual(s) to arrange a mutually convenient date and time for the coaching to occur.

Timings

To be agreed mutually.
